

zLoggConsoleManager

by Saak Dertadian, 03/08/2021, Rev.001

How to Install:

- mkdir zLogg
- cd zLogg
- wget http://dataloggermanager.com:/app/rpi/getLibs.sh
- wget http://dataloggermanager.com:/app/rpi/getLast.sh
- chmod +x get*
- ./getLibs.sh (this download the Qt libraries)
- ./getLast.sh (this download the latest version of zLoggConsoleManager)

How to launch zLoggConsoleManager:

- Do not start zLoggConsoleManager directly. The local library files will not be found. Instead launch the script zLogg with arguments if needed: **(ex: zLogg -ds)**
cat zLogg
`#!/bin/bash`
`LD_LIBRARY_PATH=. ./zLoggConsoleManager $@`
